## TYPESET IN ALDERO STANDARD GLYPH SET

**Aldero™** strives to be as useful to any design environment as Alder trees are to the forest. Native to British Columbia, Canada, Alder is vital to the woods all year round. Wildlife and insects feed on Alder leaves and seeds. The tree also provides shelter for animals in winter while its shades keep streams from getting too hot in summer. The trunks and branches are excellent habitats for lichens and mosses. The nitrogen-rich leaves help fertilize the soil where they landed, which benefits other tree species nearby.

## TYPESET IN ALDERO STYLISTIC ALTERNATE SET 1

**Aldero™** strives to be as useful to any design environment as Alder trees are to the forest. Native to British Columbia, Canada, Alder is vital to the woods all year round. Wildlife and insects feed on Alder leaves and seeds. The tree also provides shelter for animals in winter while its shades keep streams from getting too hot in summer. The trunks and branches are excellent habitats for lichens and mosses. The nitrogen-rich leaves help fertilize the soil where they landed, which benefits other tree species nearby.
